

## Business Support for Historic Federal Climate Action

Over the past 15 months, more than 2,900 U.S. companies of all sizes and sectors have publicly made the strong economic case for urgently needed, historic federal climate and clean energy investments. These companies understand the risk climate change and high, volatile energy prices pose to their business, their employees, customers, consumers, and the economy, and they call on Congress to make ambitious investments to accelerate the shift to clean, secure, and affordable energy.

### **2,900 U.S. BUSINESSES OF ALL SIZES AND SECTORS:**

**More than \$5.1T Annual Revenue**  
**22% of U.S. GDP**

**More than 400M Global Employees**  
**Greater than U.S. Population**
